Cisco Webex Meetings desktop app

The Webex Meetings desktop app allows you to start and join meetings quickly and easily. You can start and join meetings from desktop app or click a button to schedule a meeting from your calendar application. Starting with version 39.10, the Webex Meetings desktop app no longer includes integrations with Microsoft Outlook, Microsoft Office, or other applications. When you install the latest version of the Webex Meetings desktop app, any previous versions of those integrations will be uninstalled. To install those integrations, download Cisco Webex Productivity Tools.
